RE: Required Report in Case No. 03-25-2099, University of Kentucky

Dear Ms. Edwards:

Pursuant to the Resolution Agreement executed in the Office for Civil Rights Case Number 03-25-2099, the University of Kentucky submits this report detailing the steps it has taken to identify all memberships or partnerships with external organizations that may restrict participation based on race in the organization or any of the organization's programming in accordance with Title VI of the Civil Rights Act of 1964.

Enclosed is a list of all organizations identified by the University and an explanation as to whether the University is ending or continuing the relationship. To assist the Office for Civil Rights in evaluating the University's response, the remainder of this letter outlines the University's approach, evaluation, and conclusion.

Background and approach

The OCR directed the University to "conduct a review of *all* memberships or partnerships with external organizations to identify *any* memberships or partnerships with organizations that *may* restrict participation based on race." (emphasis added)

Lachauna Edwards, Esq. December 1, 2025 Page 2

To meet this requirement, the University:

- 1. Used a unified definition treating "memberships" and "partnerships" as synonymous for the purposes of this review, ensuring complete, institution-wide coverage.
- 2. Applied five evaluation parameters to determine whether an organization may restrict participation based on race.
- 3. Conducted a comprehensive review of all external organizational relationships across the University's colleges, units, departments, research programs and administrative divisions.

Evaluation parameters

The University applied the following five parameters to each organization:

1. Organization name

Whether the organization's name includes racial, ethnic, gender-based or identity-specific terms that could indicate restricted participation.

2. Former name

Whether a prior name included such terms, even if recently changed.

3. Website content

Whether public-facing materials reference preferential benefits, representation or eligibility tied to a protected characteristic or contain terminology such as "anti-racism," "structural racism" or similar concepts that may indicate identity-based restriction.

4. Leadership development programs

Whether any internal programs are limited to or expressly prioritize participation based on race or other protected characteristics.

5. Employment-related policies (for partner organizations)

Whether the organization engages in employment actions, trainings, DEI programs or affinity groups that limit opportunities based on race.

Organizations meeting any of the criterion were classified as organizations that may restrict participation based on race.

Scope of review and outcomes

Through this process, the University identified nearly 1,600 memberships and partnerships with external organizations across the institution. Using the required evaluation parameters, the University made the following determinations:

- 1. Approximately 1,200 memberships/partnerships have been *flagged for* cancellation or deeper review because they met at least one of the evaluative criteria, indicating that the organization may restrict participation based on race.
- 2. Approximately 400 memberships/partnerships will be maintained. These relationships were reviewed and determined to be:
- a. Essential to the University's academic, research, clinical or administrative functions;
- b. Required for accreditation, certification, licensure or compliance obligations; or
- c. Necessary to advance the University's mission of education, research, service and to care for students, faculty and staff.

Conclusion

In short, the University has terminated memberships or partnerships with more than 1,200 organizations while maintaining only those memberships which are essential to the University's operations. Of course, the University is committed to full compliance with both the Constitution and Title VI. The University will complete all obligations outlined in the Resolution Agreement.

Lachauna Edwards, Esq. December 1, 2025 Page 4

If you have any questions or desire additional information, please contact me at William.Thro@UKy.Edu or 859-257-2936.

Sincerely,

General Counsel

Enclosure
