

A Message from University of Kentucky
PRESIDENT ELI CAPILOUTO

Dear UK Community,

Yesterday marked the final day of our Phase II COVID-19 testing, which required members of UK Fraternity and Sorority Life organizations to receive a second test. It was the next step in our effort to make data-driven decisions to keep our community safe.

Everything we do is guided by [our team of public health and infectious disease experts](#) in our world-class academic medical center. As we identify other populations that require interventions, we will act and provide those community members with support.

In the meantime, we need you to continue doing your part. Wash your hands, wear a face covering, maintain six feet of physical distance and complete your daily screening.

And, remember: We are in this together. We always have been.

Protect. Respect. Do your part.

Keep updated on our efforts at www.uky.edu/coronavirus.
